

CUSTOMFLEX® ARTIFICIALIRIS

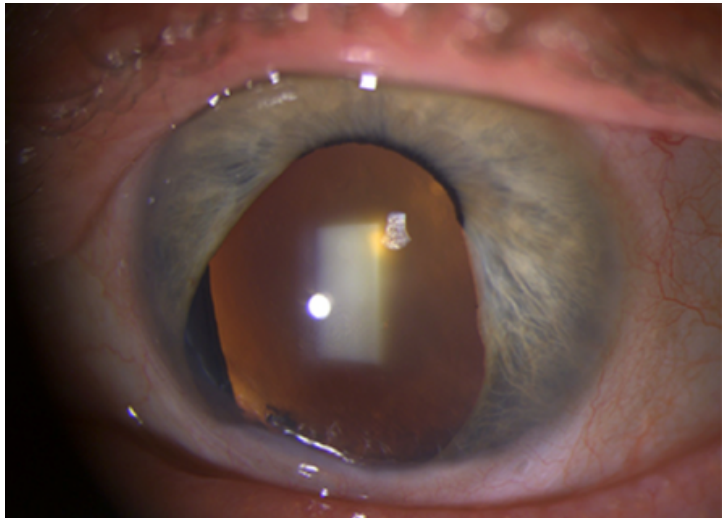

Patient Edition

Images and case provided courtesy of Michael E. Snyder, MD, Cincinnati Eye Institute

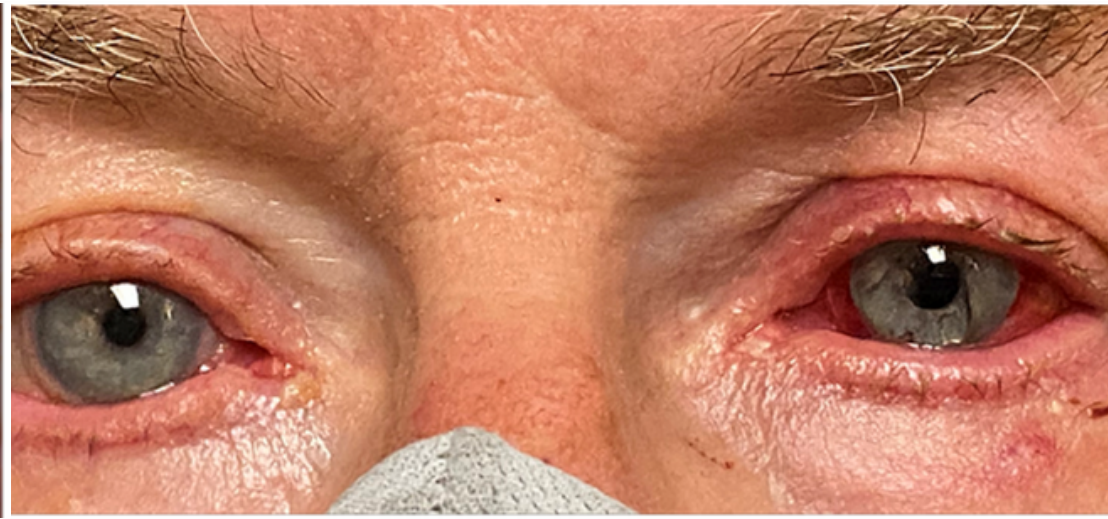

.....

"I'm seeing like never before!

Since injuring my left eye at age four, sustaining damage to the iris, I have worn glasses (35+ years) and then contact lenses (another 35+ years). These, however, couldn't correct anomalies of light streaking and ghost imaging. Finding Dr. Michael Snyder has drastically changed my world of vision. Dr. Snyder implanted a [CUSTOMFLEX® ARTIFICIALIRIS] and toric IOL. My sight improvement is simply phenomenal with clarity and acuity I've never experienced before."

Before Implantation of
CUSTOMFLEX® ARTIFICIALIRIS

Following Implantation of
CUSTOMFLEX® ARTIFICIALIRIS in left eye
